1. The following is an examiner's statement of reasons for allowance: the Examiner finds that the prior art does not teach or suggest the substantially discontinuous gradient free boundary at the mating surface of macro and micro features. The substantially discontinuous gradient free boundary as formed by the conditions necessary as disclosed and understood in light of the Specification and Applicant's argument on the record, at superatmospheric pressure and temperature conditions, wherein the temperature conditions are below liquid phase formation but as necessary to form the substantially discontinuous gradient free boundary.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Jenkins whose telephone number is 571-272-1242. The examiner can normally be reached on M-TH6:30AM-5:00PM.
